

# UNBOX FESTIVAL 2014

12-14 December, New Delhi

## Workshops

---

Star Chasers Project India

Imagine novel uses for Unmanned Aerial Vehicles with Media Innovation Studio, UK and plan a global relay race in 2015

---

Digital Craft

Participate in a hands-on workshop that brings together block printers from Rajasthan with laser cutters, conductive inks and media

---

Kanpur Innovation Lab

Expand your cerebral horizons with renowned design thinker John Thackara on a collaborative project on restoring livelihoods by design. Supported by British Council

---

Antariksha Sanchar

Get your hands dirty with a workshop on the unique challenges of trans-media and gaming for cultural transmission and science fiction

---

Scaling Up Impact

Map the skills and ambitions of all participants of the festival, creating a snapshot of the incredible collaboration opportunities at UnBox with Forum for the Future

---

Mangala For All

Superflux shows us the way to Mars with an exploration of Indian Spacecraft, the Mars Orbiter Mission and what it means for us all. Supported by British Council

---

The Internet of Things  
Academy for India

Are you interested in harnessing the power of the Internet of Things for good? Get involved in the Internet of Things Academy and explore its potential in India and beyond. With the Forum for the Future and Superflux

---

HyperLocal Type Design for  
India

Get inspired by hyper-locality and co-create a new typeface that links creators, makers and artists over a spirit of nostalgia and chai

---

Connected High Street

Reconfigure traditional ecosystems of retail with disruptive Internet of Things technology, along with Prof. Jon Rogers

---

Of Obsessions and Trips – The Conversation	Join CRIT as they take you through short narratives of Lamington Road in Bombay and weave a proposition to look at cities as bundles of interconnected trips
City as Biography	Interactive arts organization, Invisible Flock presents a workshop that will introduce participants to the company's newly designed immersive software. This will be an opportunity to explore narrative and emotive geography using digital technology, with each participant aiming to create an accompanied guide to the streets, geo-locating their chosen narrative onto those locations. Supported by British Council
Set in Stone - Did You Say?	A workshop to celebrate an ordinary construction material like concrete in extraordinary ways. Participants will roll up their sleeves and mould their own lifestyle decor objects. The workshop presents a chance to experience this material in its various forms, textures, surfaces and finishes and explore the possibilities it presents. Supported by The Design Village
Firefox OS Hackathon	A hackathon to collaboratively explore what will it take to elevate the radical Firefox OS and Mozilla phone into the lives and contexts of the millions at the Base of the Pyramid

### **Masterclasses**

Social Innovation Masterclasses	Bring your social innovation challenges to these masterclasses that talk you through methods and processes to use as you work your way towards changing the world. Anchored by industry thought leaders and leading academics, and supported by the widely acclaimed DIY Toolkit
---------------------------------	--

### **Off-Sites**

Live Memory Project	Pilot a toolkit to tell stories! Capture city stories for a shared memory map of the city for this UnBox LABS project
Re-Designing Food Distribution	A design intervention to understand in-depth the role and functioning of food distribution in India and development of a future-facing roadmap for the design of food Mandis in partnership with the UP Mandi Parishad

Storycity	Intervene, map and invigorate the museums of Delhi by bringing your own personal narrative of the city – Field trips with the Kahani Designworks' Storycity project
3x4 at Khoj	A cross cultural immersive installation that has the communities of Khirki and Southbank Centre share experiences, artworks and stories
Friends of Friends of Friends – The Walk	Leaning on friends and friends of friends, join CRIT Studio on a short joyful walk in Nehru Place talking to inhabitants, looking at the space and probably buying some gadgets

### **Panels**

Handcrafted Digital	Celebrate the spectrum of traditional and emerging crafts: from laser cut blocks for traditional printing, to 3D printing and digital jewellery
Sanitation 2.0	A critical view of the Indian sanitation zeitgeist taking a look at what it might actually take to scale up relevant impact in India manifold
Innovation in Governance	A peek into the process of innovation in governance – what are the biggest stumbling blocks, where do lines get drawn between public accountability and risks associated with innovation, what is the government vocabulary for innovation, who gets included and who gets left out?

### **Talks**

The City as a Petri-Dish	Partake in radical academic Neelkanth Chhaya's vision for an alternate future for Indian cities that takes into account informal processes that have helped cities and communities thrive for decades
TodaysArt in India Tomorrow	A delegation of the long-standing TodaysArt platform presents a preview program of TodaysArt Delhi 2015. Supported by Fonds Podiumkunsten

### **Studio Mixer**

---

Studio Meta Battle

Get your studio registered for an awesome studio meta battle exploring Indian design thinking with mixers, Show and Tell and Funbox!

---

## FoodLAB

---

Chullah Meal

Homemakers from Chirag Dilli prepare the ultimate winter comfort food - *Sarson Saag and Makki Roti* - with clay stoves and firewood

---

The North East Trail

Flavours from a host of different North East Indian cuisines and a talk by Chef Joel Basumatari, NEFAS

---

## Showcases

---

We, The Enemy

Understand cinematic perspectives on digital information monitoring and global security curated by Europe's oldest media arts festival - EMAF. Supported by Goethe Institut

---

Medicine Corner

Explore street medicine practitioners of India with this public art project. Supported by the Wellcome Collection, UK

---

Media Magica Shadow Lounge

Immerse yourself in a surreal shadow lounge of Pre-Cinema created from the lifelong works of director Werner Nekes, Germany. Supported by Goethe Institut

---

## Exhibits

---

Digital Craft

Reviving intricate archival blocks using newer materials and laser cutters: a pre-UnBox collaboration between block printing studio Rangotri, Sanganer and Prof. Justin Marshall, UK. Supported by AIACA

---

UnBox Labs: Future Cities

Participate in the progress of multiple urban intervention projects seeded at the UnBox Labs held earlier this year at the National Institute of Design Ahmedabad. Supported by the Arts and Humanities Research Council, UK and British Council

---

---

Hive Learning Networks

Join the growing constellation of global communities championing digital skills and web literacy through connected learning. Supported by Mozilla

---

Sound Pod

Enter the sound pod to experience how noise levels change your perception of the city.

---

## Performances

---

Crowd DJ

Keep dancing or the sound will drop! Get hands on with Crowd DJ - an interactive dance project from Holland by DJ Tomlaan

---

Canto Ostinato Audio Visual

Don't miss this epic collaboration from Holland that brings together pioneers in classical Harp, electronic music and video art. Supported by Fonds Podiumkunsten

---
